THE ESTIMATOR

from RFP to a range you can defend

Nguyen My Thong · Anduin Cybernetics

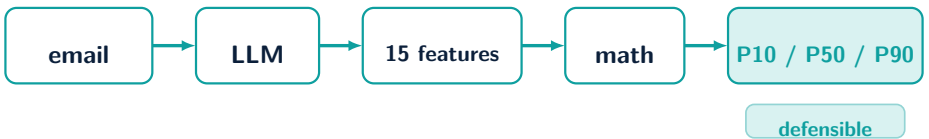

A number nobody can defend.

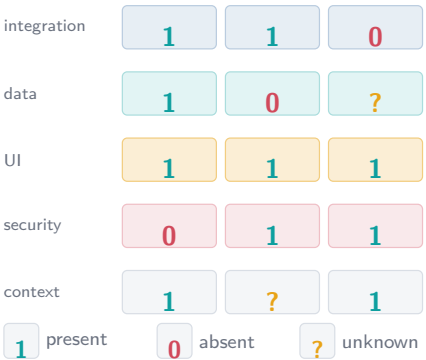

solve a pain I've felt → check it scales → build

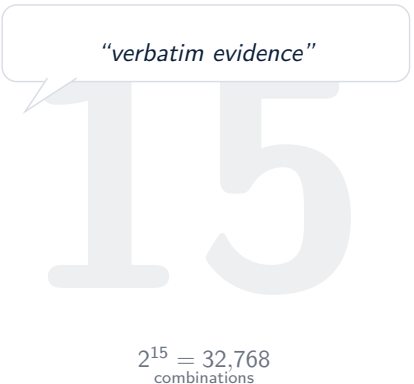

The LLM is not allowed to do arithmetic.

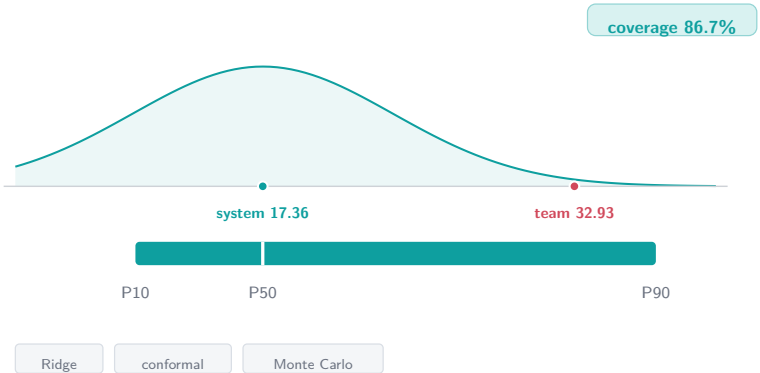

15 features. 3 states. 1 quote each.

Business builds. Someone has to make it trustworthy.

I don’t use AI to skip thinking. I use it to think faster — then I test harder.

Thank you.
